About Khandelwal Carpets

Khandelwal Carpets is a Gwalior-based manufacturer of handknotted woolen and art silk carpets, built entirely on the job work model. Rooted in the weaving heritage of Madhya Pradesh, the company has built its reputation on one powerful promise: delivering beautifully crafted, handknotted carpets that carry the soul of traditional Indian craftsmanship to buyers across the country and beyond.

Operating through a network of skilled artisan weavers, Khandelwal Carpets functions as both manufacturer and supply chain partner for showrooms, wholesalers, and export buyers who demand authentic quality, flexible sizes, and reliable order fulfilment. The job work model — where weavers are engaged on a per-order basis at fixed looms — keeps overheads lean while keeping craftsmanship uncompromised.

The company's product portfolio spans three core collections: the Classic collection (Kashan, Kerman, Hamdan, Hunting and more), the Tribal collection (Bukhari, Likhai, Aztec), and the premium Art-Silk collection — all available in a wide range of sizes, colours, and custom specifications.

The Challenge

The handknotted carpet trade presents unique challenges that test even experienced businesses. Khandelwal Carpets has successfully navigated several of these:

Production Challenges

- Ensuring consistent quality across artisan-produced, handknotted items
- Sourcing and maintaining high-grade wool, art silk, and natural raw materials
- Managing skilled weaver availability for varying order volumes
- Balancing traditional craftsmanship timelines with buyer delivery expectations

Supply & Trade Challenges

- Meeting buyer expectations for timely order fulfilment from a Tier-2 city base
- Competing with machine-made alternatives on turnaround speed and price perception
- Building trust with new domestic and export buyers unfamiliar with job work production
- Reaching handicraft showrooms across India and international buyers simultaneously

The Solution

Khandelwal Carpets has built its success on a practical, craft-forward approach that combines the job work manufacturing model with strong product range management and buyer-focused flexibility.

Job Work Model: The Core Advantage

By engaging skilled weavers on a per-order basis, Khandelwal Carpets keeps fixed costs low while maintaining a flexible production capacity that scales with demand. Buyers deal with a single accountable producer — from order

placement to delivery — receiving competitive pricing and transparent timelines without the risks of multi-party sourcing.

Handknotted Quality, Every Time

Every carpet is crafted by skilled weavers using traditional hand-knotting techniques inherited across generations. Weavers sit in rows at fixed looms, counting knots by eye and creating by hand from a graph pinned above the loom. A large carpet can take up to 6–8 months to complete. This commitment to authentic craft is non-negotiable and defines the company’s products in a market increasingly dominated by mechanised alternatives.

Broad Product Range Across Three Collections

The Classic collection (Kashan, Kerman, Hamdan, Khatras, Hunting, PKD) uses wool pile on a cotton foundation at 110 knots per sq. inch. The Tribal collection (Bukhari, Likhai, Aztec, Bukhara) uses all-wool construction at 84 knots per sq. inch. The Art-Silk collection uses a viscose pile on cotton at 120 knots per sq. inch — the finest quality in the range. All collections are available in sizes from 2×3 ft to 12×18 ft.

Custom Order Capability

Buyers can specify custom sizes, colour schemes, design patterns, and pile specifications. With 25,000 sq. ft. of ready stock across designs and sizes, Khandelwal Carpets can fulfil spot orders immediately while also accommodating bespoke production runs. This flexibility — rare in the handmade sector — has been central to building long-term buyer relationships and earning repeat business.

Reliable Fulfilment from Gwalior

As a dedicated manufacturer-supplier, Khandelwal Carpets maintains production planning discipline and clear buyer communication to ensure agreed timelines are met. This dependability — rare in the artisan handicraft sector — is a core element of the company’s reputation and its ability to serve wholesale and export clients alike.

What Sets Us Apart

 Artisan Craft 100% handknotted woolen and art silk carpets by skilled weavers — genuine quality in every knot, every thread.	 Stock & Fulfilment 25,000 sq. ft. of ready stock. Immediate despatch on standard sizes; custom orders fulfilled to specification.	 Full Flexibility Custom sizes, colours, and designs — from 2×3 ft to 12×18 ft — tailored precisely to each buyer's requirements.
--	---	--

“We are not just a carpet company. We are a bridge between the skill of Gwalior’s weavers and the buyers who value the irreplaceable quality of something made entirely by hand.”

— Anurag Khandelwal, Khandelwal Carpets, Gwalior

Impact & Community Value

Khandelwal Carpets' work carries significance that extends well beyond its own business growth. By sustaining consistent demand for handknotted woolen and art silk carpets through the job work model, the company directly supports the livelihoods of skilled weavers and artisan families in and around Gwalior. In a craft sector where mechanisation and imported alternatives constantly threaten traditional employment, Khandelwal Carpets plays an essential role in keeping artisan communities economically active and culturally connected to their heritage.

The company also contributes to the broader promotion of Gwalior as a centre of handmade carpet excellence — reinforcing the city's reputation in domestic and international trade circles, and helping preserve a craft tradition that has defined the region for generations. Every order fulfilled is not just a business transaction; it is an act of cultural preservation.

The Way Forward

With a strong foundation as a trusted manufacturer of handknotted carpets operating through the job work model, Khandelwal Carpets is focused on building the next chapter of its growth:

- Registering on leading international B2B trade portals to access wholesale and retail buyers across global markets.
- Investing in professional product photography and a comprehensive digital catalogue for online buyers.
- Expanding the weaver network to increase production capacity and reduce lead times on bulk custom orders.
- Developing an exclusive in-house design library of traditional and contemporary carpet patterns for direct buyer selection.
- Strengthening export packaging and logistics partnerships to ensure safe, timely international delivery.
- Pursuing Handloom Mark certification and trade body memberships to enhance credibility with premium domestic and export buyers.
